FEATURE ARTICLE

Library and Information Centre, Government First Class College (GFGC), Jewargi, Kalaburagi Dist. Karnataka State

GFGC Jewargi Library and Information Center aims at developing a comprehensive collection of materials in the various streams of the college like Arts, Humanities, Social Science and Science and Technology, giving vital support to teaching and research in the college. The library has grown over the years to be one of the best college libraries in the Kalyan Karnataka region. The library routine activities are fully computerized using e-Granthalaya 4.0 a cloud-based Integrated Library Management Software, with the adoption of barcode and QR Code integration in routine housekeeping activities. An exclusive library mobile app is being used by all library users to track their book circulation transactions along with the current status of the books in real-time. SMS and WhatsApp alerts are being sent to individual students to notify the happenings of the library.

The library has its own independent building, which is well equipped and well managed with an ISO standard infrastructural facility. Which was built under the 1.45 Cr. RUSA funds. The separate building is inaugurated on 5th September 2019 by Dr. Ajay Singh ji, Hon'ble MLA of Jewargi. The library is spread over a built-up area of 542 Sq. Meter provides a conducive environment for the readers. The library has a wealth of reading material, including more than 30,000+ books and print and electronic journals.

The library has an MOU with Gulbarga University Library to get access to resources of the Gulbarga university library. Apart from barcoding the physical books, the library has Bar-coded and QR-coded library members' ID cards to give quick access to library e-resources. An exclusive Telegram Group is being created to feed the current information to library users. Desktop Systems are placed to provide access to Online Public Access Catalogue (OPAC). Internet CCTV/Surveillance Cameras are being installed as part of the anti-theft measure to avoid stealing of books and other library belongings. A separate ramp facility is provided at the entrance for differently abled challenged users. Fire extinguishers are installed to avoid fire incidents. 24X7 uninterrupted electricity and power backup facility. Separate Ladies' and Gents' Rest Rooms are available in the library. The library has incorporated newer dimensions to help students in acquiring excellence in their curricular and co-curricular pursuits of education.

The Library has Wi-Fi connectivity which enables access to free internet to the users on their own Laptops/Tabs within the campus, which also helps us to provide access to various subscribed electronic resources through Institutional memberships. Further, the college library has signed MoU with Gulbarga University to gain access to e-Resources subscribed by the Gulbarga University Library via remote login. Library orientation is being conducted periodically to users to become fully developed lifelong retrievers, evaluators, and users of information.

Library has established small Green Screen Multimedia Content Creation Studio with minimum hardware and software ICT infrastructure, which includes Ring Light, HD Camera, Boya Mic, ShortCut and OBS open source software for editing and broadcasting. It helps staff develop video lecture content, online classes, online meetings and also helps students to exhibit their talents on online social media platforms. This was found to be a unique initiative and practice among the Government College libraries of Karnataka.

4. All India Radio interview of the Librarian Dr. Vinodkumar

Karnataka's renowned newspaper Prajavani has published a special report on our library in the state edition of the newspaper on 22nd June 2023 in State News) and a documentary about Library on PrajavaniFacebookand YouTube on 21-06-2023. The broadcast has attracted the attention of the academic community of the entire state. Apart from this, an interview of the Librarian Dr. Vinodkumar has aired by All India Radio Bangalore Center in Pradesha Samachar on 28-10-2023. The library is committed in providing access to the library's collections in various formats most useful to clientele both on and off the campus. Library focuses on acquiring, organising, preserving and providing information resources (in various formats) that adequately support the curricula of the College and Institution and the teaching and research needs of the students and faculties. The library has created an environment that provides facilities conducive to study and research. Further, incorporate new technologies for supporting the objectives of the library.

"If this nation is to be wise as well as strong, if we are to achieve our destiny, then we need more new ideas for more wise men reading more good books in more public libraries. These libraries should be open to all—except the censor. We must know all the facts and hear all the alternatives and listen to all the criticisms. Let us welcome controversial books and controversial authors. For the Bill of Rights is the guardian of our security as well as our liberty."

— John F. Kennedy

Augmented reality in libraries:

Augmented Reality (AR) is a technology that superimposes computer-generated images, sounds, videos, or other data onto the real world, enhancing one's perception of reality. AR combines virtual content with the physical environment, allowing users to interact with both simultaneously. It's used in various applications, from gaming and entertainment to education and professional training, including enhancing library experiences.

Augmented reality (AR) has significant potential in libraries, enhancing user experiences and supporting librarians.

Here are some examples:

Locating Books: AR apps like LibrARi help users find specific books by superimposing virtual information on the bookshelf, reducing the need for manual searching.

Providing Detailed Information: AR apps like myLibRARY offer additional information and reviews about media, enhancing user discovery and engagement.

Suggesting Similar Books: AR apps can suggest similar books based on user preferences, making recommendations more personalized and effective.

Guided Tours: AR-based apps can provide guided tours of libraries, reducing the load on librarians and enhancing the overall user experience.

Maintaining Bookshelves: AR apps can assist librarians in maintaining bookshelves by providing real-time information on book locations and inventory management.

These examples demonstrate the potential of AR in libraries, improving user engagement, information literacy, and overall library operations.

Librarian-in-Black: (Librarian in Black" refers to Sarah Houghton, who is known for her blog where she shares insights on library technology, digital services, and issues related to librarianship.) A Layer-based mobile app that allows users to take local history tours with augmented reality.

New York Public Library's Find the Future: A game designed to empower players to find inspiration for their own extraordinary futures by bringing them to historical sites and landmarks through augmented reality.

ShelvAR: An augmented reality application developed by the Miami University Augmented Research Group (MUARG) that uses the camera of a mobile device to read a bookshelf and flag books that are missing or misplaced.

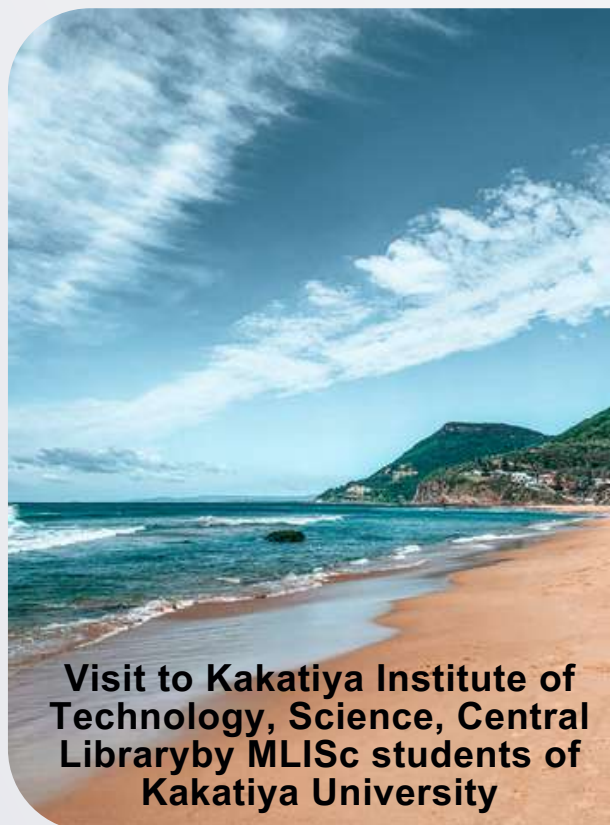

Smart Library: An AR app developed and tested at the Oula University Library that allows users to locate themselves in the library and find what they are looking for by using landmarks.

Wolf Walk: An AR app optimized for the use of mobile devices on the North Carolina State University Campus that allows users to explore the history of the university with a location-aware map and photo viewer for browsing historical content.

These examples demonstrate the potential of AR in enhancing user experiences and providing interactive information experiences in libraries.

Visit to Kakatiya Institute of Technology, Science, Central Library by MLISc students of Kakatiya University

INTERNSHIP/ STUDY TOUR

As part of curriculum M.L.I.Sc (Regular) (2023-24) Students, Department of Library & Information Science, Kakatiya University Warangal, Telangana has visited KITSW, Central Library on 11-07-2024 to explore the practical knowledge in the field of the library & Information science. Dr K. Indrasena Reddy, Librarian described the facilities and services provided by the library of KITSW stressing on the use of the Digital library and e-journals and remote access to update the knowledge in the desired field.

On this occasion KITSW, Library committee Chairperson, Prof. M. Sreelatha highlighted that the students have trained in the field of Reference section, Book Bank Section, Digital library, Stack Area, Circulation counter, Back volumes. In the practical session students have been trained how to classify & catalogue the books and access the number and to record in the accession register, also how to enter the data in the library software and how to search the book through OPAC. The students visited the Reference section, Book Bank Section, Digital library, Stack Area, Circulation counter. In the Digital library explained how to access e-journals and download the e-journals from the concerned sites. Also explained how to subscribe hard copies of journals and how to preserve the back volumes and channelize the competitive books, higher education books, rare books, personality development books etc. In the circulation counter how to maintain circulation counter and issued/return of the books. At the end Dr. K. Indrasena Reddy clarified the doubts of the students. In this event ECI HOD Dr. K. Sivani., ECE Faculty Dr. M. Raju & E. Suresh, Library Staff M. Niranjan, Asst. Librarian, Dr. M. Arun Kumar, Library Asst. P. Sumalatha, Library Asst. T. Raju and library science students took part in the program.

Visit to Ravindra Kaushik Smart E-Library, Shahapur, Belagavi, Karnataka by students of KLS Gogte College of Commerce, Belagavi students

KLS Gogte College of Commerce Belagavi faculties Prof. Nayana Raichur, Dr. Praveen Hulloli and Prof. Anita Jalawadi along with more than 50 B.Com final year students visited Ravindra Kaushik Smart e-library in Shahapur, Belagavi on 31st May 2024. Mrs. Manisha P Hulloli Librarian and their staff Smart e-library explained about the library, digital e-resources, research tools, and latest services.

There was an interactive session where our staff and students all clarified any doubts. This visit will likely be a valuable learning experience for them as it will help them develop: Project research skills: By understanding the available resources and tools, they'll be better equipped to conduct effective research for their projects. Digital literacy: Exposure to the library's digital resources will enhance their digital skills and comfort level with online research methods.

SUCCESS STORY

Maitreyi College Library,
University of Delhi:
Implemented RFID system

Maitreyi College Library witnessed a new mile stone by implementing a new emerging technology called Radio Frequency Identification System (RFID) in their library Management services., Prof. Haritma Chopra, Principal Maitreyi College inaugurated the RFID system on 24th June, 2024 in the library premises. Dr. Pardeep Rai, Librarian, Mr. Ranu Kumar (A.O.), faculty members, non-teaching staff members, library Staff and students make the occasion more purposeful. Prof. Chopra told about the significant role of the advanced technology in enhancing library services and user's time saving. Dr. Rai also added about the salient feature of RFID security system in minimizing book theft and record the footfall data in digital form as well as how the users can do self-check in and check out.

EVENT ORGANIZED

Prof. M. P. Satija, DLIS, GNDU, Amritsar, delivered an enlightening lecture on the "Development of Libraries since Ancient Times." The lecture was held under the leadership of Prof. Sangita Gupta, Head of the DLIS, University of Jammu. Emphasizing the pivotal role of libraries in preserving and disseminating knowledge, Prof. Satija highlighted how libraries have evolved through various phases, adapting to technological advancements and societal changes. Prof. Sangita Gupta expressed her appreciation for Prof. Satija's insightful presentation, noting its relevance in understanding the historical context of libraries. The lecture was attended by faculty members (Dr. Meghna, Dr. Bindu, and Dr. Reenu Arti Thakur), scholars, and students.

Lecture on "Development of Libraries since Ancient Times" at DLIS, University of Jammu

FORTHECOMING EVENTS

6th NACML-2025 (National Conference on Management of Modern Libraries)

SEARCH – The KMC Health Sciences Library and Department of Library and Information Science, Manipal Academy of Higher Education (MAHE), Manipal, Karnataka, is organizing the 6th NACML-2025 (National Conference on Management of Modern Libraries) on 21st and 22nd February 2025 on the theme “Shaping the Future of Academic Libraries: Trends and Prospects.” Submissions of papers should be based on research or practical experience. Authors can submit their full papers through an e-mail attachment to lisconference@manipal.edu. The 6th NACML-2025 Organizing Committee is delighted to announce FOUR Best Paper Awards (Student category – I & II and Professional category – I & II) to recognize academic librarianship and research excellence.

LD4 2024 Conference: Building Community for Linked Open Data

Submission deadline: August 25, 2024: Submission form: <https://forms.gle/jYXkFMYMVBVSYd6o7>

The 2024 LD4 Conference will be held online from October 7-11. The conference will include activities tailored to all levels of experience with linked data, with a focus on these main areas in understanding how we can build community with linked open data. The conference is an initiative of the LD4 Community. The conference is free of charge, and general registration will open around the beginning of September. To submit a proposal, please fill out the form: <https://forms.gle/jYXkFMYMVBVSYd6o7>

2025 World Library and Information Congress

The International Federation of Library Associations and Institutions (IFLA) has selected Astana, Kazakhstan to host the. This is the first ever edition of IFLA's flagship event to be held in Central Asia and reinforces IFLA's role in developing the international library field. Stay up-to-date with the latest news regarding the 2025 Congress by [subscribing to the IFLA Newsletter](#) and following #WLIC2025 on [social media](#).

BIBFRAME workshop in Europe

The programme for the 8th annual BIBFRAME Workshop in Europe is now online at <https://2024.bfwe.eu>. This year's workshop will be a hybrid event, hosted by the National Library of Finland in Helsinki on September 17th and 18th. Participation in the event is free of charge but registration is required. All registration and practical information is available on the conference website. For details visit: www.bfwe.eu | conference@bfwe.eu

NEWS YOU CAN USE

Linked data: Future of Library cataloguing

Changes that are being experimented to linked data i.e. catalog / entry shall link the documents, data related to the document in search. It shall link documents in Library, community and outside which enables the user to get linked to related data/ information. Imagine the future developments. Still our syllabus includes, AA CODE, ALA CODE, AACR, RDC etc. Where are we lingering. Caution to library schools For more visit: [Linked data: The future of library cataloging \(oclc.org\)](#)

Closure of Mobile libraries:

Government of Karnataka has closed down seven mobile libraries across the state as these vehicles were more than 15 years old and need to be scrapped as per Government policy. Now mobile libraries at Mysuru, Mangaluru, Ballari, Dharwad, and Belagavi only are functioning.

MILL CRISIS by Curtis Brundy & Joel B. Thornton

The paper mill crisis, which is polluting the scholarly literature with fake papers, has led to record-breaking article retractions and continues to erode trust in science. While publishers and other scholarly publishing stakeholders have mobilized to address this grave threat to research and publishing integrity, action from the library community has been lacking. This article explores the ongoing impact of the paper mill crisis and its causes. It also reviews the steps being taken across the sector to address it. This includes actions taken by publishers, integrity sleuths and organizations like Retraction Watch, NISO and STM. Based on the severity of the crisis and the current response, this article recommends actions libraries can take to help address the crisis and clean up the mess paper mills have made in the scholarly literature. At a time of declining trust and growing threats facing society, it is critical that all scholarly publishing stakeholders, including librarians, help hold the line on publishing integrity and restore trust in science. Zenodo an attractive (and low-cost) option to make Indian research open access

Zenodo (<https://zenodo.org/>) is a free, open-access digital platform that allows researchers to share and preserve their research outputs, including data sets, publications, presentations, posters, multimedia, software, and educational resources. Zenodo is built on open source software and was developed by the European Organization for Nuclear Research (CERN), the organization where the World Wide Web was also developed by Tim Berners Lee, but is open to researchers from everywhere. Zenodo makes scientific outputs of all kinds citable, shareable and discoverable for the long term.

Canada has launched a wonderful digitization project. Please see: <https://internetarchivecanada.org/2024/07/01/internet-archive-canada-launches-digitization-project-with-library-and-archives-canada/>

MIT press books online

Hundreds of MIT Press books (and monographs) are available open access. These titles, covering a wide range of fields including the sciences, social sciences, engineering, technology, policy studies, arts and humanities, are free to download.

Readers Digest UK edition is closed

30th April, 2024 a sad day for the book readers. THE READERS DIGEST UK edition has been closed after 86 years. The magazine's editor-in-chief, Eva Mackevic, announced on LinkedIn that the company was unable to withstand the financial pressures of the current magazine publishing landscape. The May 2024 issue was the last to be published. For more details UK's Reader's Digest shuts down after 86 years: 'Company just couldn't withstand...' (moneycontrol.com)

"The biggest problem with every art is by the use of appearance to create a loftier reality."

– Johann Wolfgang von Goethe

Science Is Full of Errors. Bounty Hunters Are Here to Find Them ♦

A new project is paying researchers to find errors in other scientists' work. The only problem? Even error hunters make mistakes.

"In 2010, two famous economists, Carmen Reinhart and Kenneth Rogoff, released a paper confirming what many fiscally conservative politicians had long suspected: that a country's economic growth tanks if public debt rises above a certain percentage of GDP. The paper fell on the receptive ears of the UK's soon-to-be chancellor, George Osborne, who cited it multiple times in a speech setting out what would become the political playbook of the austerity era: slash public services in order to pay down the national debt. There was just one problem with Reinhart and Rogoff's paper. They'd inadvertently missed five countries out of their analysis: running the numbers on just 15 countries instead of the 20 they thought they'd selected in their spreadsheet. When some lesser-known economists adjusted for this error, and a few other irregularities, the most attention-grabbing part of the results disappeared. The relationship between debt and GDP was still there, but the effects of high debt were more subtle than the drastic cliff-edge alluded to in Osborne's speech.

Scientists—like the rest of us—are not immune to errors. "It's clear that errors are everywhere, and a small portion of these errors will change the conclusions of papers," says Malte Elson, a professor at the University of Bern in Switzerland who studies, among other things, research methods. The issue is that there aren't many people who are looking for these errors. Reinhart and Rogoff's mistakes were only discovered in 2013 by an economics student whose professors had asked his class to try to replicate the findings in prominent economics papers. With his fellow meta-science researchers Ruben Arsland and Ian Hussey, Elson has set up a way to systematically find errors in scientific research. The project—called ERROR—is modeled on bug bounties in the software industry, where hackers are rewarded for finding errors in code. In Elson's project, researchers are paid to trawl papers for possible errors and awarded bonuses for every verified mistake they discover.

The idea came from a discussion between Elson and Arsland, who encourages scientists to find errors in his own work by offering to buy them a beer if they identify a typo (capped at three per paper) and €400 (\$430) for an error that changes the paper's main conclusion. "We were both aware of papers in our respective fields that were totally flawed because of provable errors, but it was extremely difficult to correct the record," says Elson. All these public errors could pose a big problem, Elson reasoned. If a PhD researcher spent her degree pursuing a result that turned out to be an error, that could amount to tens of thousands of wasted dollars.

Error-checking isn't a standard part of publishing scientific papers, says Hussey, a meta-science researcher at Elson's lab in Bern. When a paper is accepted by a scientific journal—such as *Nature* or *Science*—it is sent to a few experts in the field who offer their opinions on whether the paper is high-quality, logically sound, and makes a valuable contribution to the field. These peer-reviewers, however, typically don't check for errors and in most cases won't have access to the raw data or code that they'd need to root out mistakes."

Science Is Full of Errors. Bounty Hunters Are Here to Find Them

A new project is paying researchers to find errors in other scientists' work. The only problem? Even error hunters make mistakes.

APPOINTMENTS

AWARDS

Ph.D. AWARDED

Prof. Pravakar Rath

Prof. Pravakar Rath

Department of Library and Information Science has been appointed as Pro-Vice-Chancellor, Mizoram University in addition to his regular duties w.e.f.1st July, 2024.

Mr. E Ramesh

E Ramesh

Librarian at Hyderabad Institute of Technology and Management (HITAM), showcased his expertise at the IEEE EBSCO Knowledge Feast 2024 held at Hotel Taj Deccan, Banjara Hills, Hyderabad on July 23, 2024. The event, gathering faculty and librarians from the top 50 engineering colleges, featured an interactive quiz where participants demonstrated their knowledge. E Ramesh, representing HITAM, secured the 3rd prize in the competitive quiz.

**Mr. Shashikumar
M C**

Mr. Shashikumar M C, has been awarded PhD degree in Library and Information Science by University of Mysore, Mysuru, for his thesis entitled 'Awareness and Utilization of Social Media by the Library Professionals in Universities in Karnataka: A Study' under the supervision of Prof. Chandrashekara M, Department of Library and Information Science, University of Mysore, Mysuru, Karnataka.

National Council for Cement and Building Materials, New Delhi and Chowgule Group of Industries. He was briefly associated with American University of Kuwait and Industrial Bank of Kuwait during the setting up /modernization of respective Libraries. He was also associated with academic activities of Department of Library and Information Science, Kuwait University. Mr. Jayadev is a Life Member of ILA, IASLIC and KALA and has had professional affiliation with Special Libraries Association (USA), SLA Gulf Chapter, American Library Association and ASLIB - AIM(UK).

Mr. Suresh Kumar

Suresh kumar has been awarded PhD for his thesis " User Satisfaction towards E-resource management of NIFT Resource centres in India: A study from RNTU University, Bhopal under the guidance of Dr. Rakesh Kumar Khare.

**Mr. Nandeesh B**

Mr. Nandeesh B, Asst. Library and Information Officer, All India Institute of Speech and Hearing, Mysuru, Karnataka has been awarded PhD degree in Library and Information Science by University of Mysore, Mysuru, for his thesis entitled 'Scientometrics of Communication Disorders' under the supervision of Prof. Khaizer Jahan Begum, Department of Library and Information Science, University of Mysore, Mysuru, Karnataka.

**Mrs. Sushma Ramdas
Mawande**

Mrs. Sushma Ramdas Mawande Librarian, Late Madangopal Mundhada Arts, Commerce and Ashok Science College, Chandur Rly has been awarded Ph D for her Ph D Thesis Sustainability of University Libraries in Maharashtra in new information under the guidance of Prof Vaishali P Gudadhe Professor & Head, Deptt. of Library & Information Science, Sant Gadge Baba Amravati University, Amaravathi.

HONORARY DOCTORATE

Jayadev Hiremath has been recently conferred with Honorary Doctorate Degree from Central University of America. Mr. Jayadev P Hiremath holds a M.L.I.Sc. from Karnatak University, Dharwad. He was awarded Dr. S R Ranganathan Gold Medal and Karnataka State Award for securing First Rank in B.L.I.Sc. He is a former Librarian of BITS, Pilani, Dubai Campus. He has earlier served as University Librarian with the Karnataka State Law University, Hubli, as Librarian with D.B.H.P. Sabha, Dharwad, Institute of Banking Studies, Kuwait, The British (Council) Library, Bhopal, UTI Institute of Capital Markets, Mumbai,

SUPERANNUATION

Shri Y B Koradur, Librarian Shri Tammannappa Chikodi Arts and Science College Banahatti, Dist: Bagalkote, Karnatka has been superannuated on 31st May 2024 having served for than three decades.

FELICITATION

Dr.Praveen Hulloli

Dr. Praveen Hulloli, Chief Librarian at KLS Gogte College of Commerce, Belagavi. was bestowed with the highest honor as a distinguished speaker in a "Special Lecture Program" organized by the Department of Library at Raichur University.
